JOSEPH MORENO

josephpinoy2@yahoo.com

Summary

I am a front-end developer seeking a junior / entry level position. I am self-taught. Everything I have learned as a front-end developer stems from curiosity and learning online. My knowledge ranges from HTML and CSS to React. I even have beginner level knowledge in back-end with Node.js, express.js & json web tokens. I hope to join your team and be a contributing member.

Projects

- **Food Order Application** - React based project. Responsive Web Design . Figma
